

FUSO CHECKLIST GUIDE

Keeping your high-touch areas of your truck clean and sanitized will help keep you healthy and safe. This checklist can become part of your daily truck inspection, and is helpful to help reduce the spread of COVID-19 or other airborne viruses for that matter.

Tip 01

High-touch areas to clean and disinfect often.

- Truck key(s) or key fob
- Inside and outside door handles
- Armrests
- Power lock switches (on all doors)
- Turn signal and wiper levers
- Console
- Radio and climate control buttons
- Seat belts
- GPS, backup camera display, touch screen (eCanter)
- Starter button (on the eCanter)
- Inside grab handles
- Power windows (on all doors)
- Steering wheel
- Gear shift
- Dashboard, including any buttons or controls
- Seats and seat adjusters
- Glove & Storage compartments within cabin

What does “High-Touch” mean? This is considered a surface or area that is frequently touched by people.

Tip 02

How to Clean and Disinfect Your FUSO Truck.

- Wear disposable, water-proof gloves whenever cleaning your truck
- Consider the kind of cleaning solutions and disinfectants to use in your truck
- Seek guidance from the U.S. Centers for Disease Control and Prevention (CDC) for the type of cleaner and disinfectant to use against coronavirus (COVID-19)
- Read the product's instructions and follow them
- Ensure the surface you are cleaning is visibly wet for the instructed amount of time
- Discard of your cleaning cloths, paper towels and gloves after you are finished
- Wash your hands when done

It's a business's responsibility to provide a safe and healthy work environment for all its employees. Use these guidelines to help keep your truck properly cleaned. Because information and recommendations related to COVID-19 changes frequently, we strongly recommend to research and follow the recommendations of your national health agency, such as the CDC. You should also follow any local or national laws and regulations.

This guide is not a substitute for professional medical advice on how to prevent COVID-19 or other viruses. This information is subject to change. FUSO gathered this information from Transport Canada and other notable sources.
